

## MARCIL TECHNOLOGIES E NEWS

Marcil Technologies

Increase Efficiency

December 2009

### Who is Marcil Technologies and what do we do?

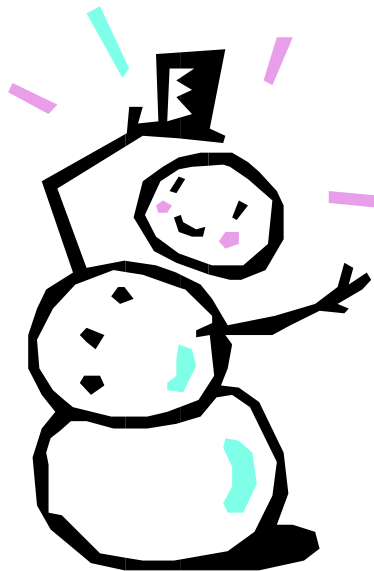

First and foremost, we specialize in efficient, intuitive solutions that improve workflow and leverage the right technology tools to fit your business needs.

We are dedicated to a continuing focus on improving workflow, investing in functionality (including the use of smartphones and web enhancements) and improving our customers' processes.

Future functionality of Project Accounting and

Xpede.NET includes:

- Additional reporting capabilities

#### Meet Andrea

This issue of Marcil Technologies eNews features a profile on Andrea Trzynka. Andrea has worked with the Project Accounting and Xpede.NET products for 10+ years in the roles of testing, standard product development, and custom development. She has lived in North Dakota all of her life and has a BS in Computer Information Systems. She is currently pursuing a BSN degree.

When she's not at work or studying you can find Andrea on one of the many golf courses in the

area – during the summer months she's an avid golfer - during the winter she cross country skis (yes you can cross country ski on the golf courses here in North Dakota too ). To add to her love of golfing, she has volunteered at two US Women's Opens and one PGA Championship. Andrea is also very creative – she loves to bake and work on crafts and art projects including her annual homemade holiday cards.

If Andrea won the lottery, she would spend her time traveling around the globe learning about new places and cultures and of

- Mobility
- Document attachment
- Ability to import information from banks and credit card accounts
- Multi-currency options
- Multi-language options
- Screen-level customization

### Holiday Incentives

Close any software package deal by January 15th and receive 10% off your software and consulting rates.

#### Important Dates:

In observance of the holidays, our office will be closed December 24th and 25th and January 1st.

Microsoft Convergence  
April 24–27 Atlanta, GA

course visit Pebble Beach Golf Links and The Old Course at St. Andrews. After some time on the courses she would be relaxing on the beaches of Maui.

Andrea's favorite feature in Xpede.NET is having project templates so she doesn't have to choose projects, phases, and tasks every week for her timesheets. Thank you Andrea!

#### Knowledge Base:

- Installing Xpede.NET on Windows Server 2008—In Roles Services, IIS 6 Management Compatibility must be marked.
- Smartlist functionality for Project Accounting includes Projects, Timesheets, and Expense Claims.

#### *Tips to De-stress the Holidays*

- Create a set time everyday that you will take care of yourself emotionally.
- Help one person everyday.
- Be thankful.
- Remember the reason why you're celebrating

We would like to thank Deb for her years of service and wish her all the best as she moves on to new endeavors.

#### Final Thoughts from Bruce:

During this joyous holiday season, we take great pleasure in delivering this heartfelt message of gratitude for your partnership over the past year. We sincerely appreciate you! It is great clients and partners like you that make our business worthwhile.

May your Holidays be filled with joy and your table be overflowing with all of the good things in life.

Marcil Technologies' **Sports Film Exchange** game film sharing service ([www.sportsfilmexchange.com](http://www.sportsfilmexchange.com)) successfully wrapped up the 2009 high school football season in November. This season rolled out the exchange service to fifty North Dakota schools, allowing us to fully load test and prove out our system's architecture. We look forward to having all North Dakota high schools using SFX next year as we expand across the United States and Canada.

Marcil Technologies continues to provide support and development services to applications being used in Veterans Administration hospitals across the United States. Marcil Tech's largest government contract is to the VA's Office of Geriatrics and Extended Care, supplying support and software development to over 900 medical and administrative users that survey State Veterans Homes in all fifty states.

**All of us at Marcil Technologies wish you and yours a Happy Holiday Season! We are looking forward to an exciting 2010!**
